

## Mathematics Medium Term Plan – Year 5

Unit	National Curriculum End of Year 5 Statutory Requirements	Learning Objectives	Small Steps
		Autumn Term	
Place Value	<ul> <li>To be able to read, write, order and compare numbers to at least 1 000 000 and determine the value of each digit</li> <li>To be able to count forwards or backwards in steps of powers of 10 for any given number up to 1 000 000</li> <li>To be able to interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers, including through zero</li> <li>To be able to round any number up to 1 000 000 to the nearest 10, 100, 1000, 10 000 and 100000</li> <li>To solve number problems and practical problems that involve all of the above</li> <li>To be able to read Roman numerals to 1000 (M) and recognise years written in Roman numerals.</li> </ul>	<ol> <li>To be able to read and write numbers to 1,000 in Roman numerals</li> <li>To be able to read, write and partition numbers to 10,000</li> <li>To be able to read, write and partition numbers to 100,000</li> <li>To be able to identify the place value of numbers up to 1,000,000</li> <li>To be able to read and write number to 1,000,000</li> <li>To be able to use powers of 10 to understand place value in numbers up to 1,000,000</li> <li>To be able to find 10/100/1000/10000/100000 more or less than a number within 1,000,000</li> <li>To be able to partition numbers to 1,000,000</li> <li>To be able to compare and order numbers to 100,000</li> <li>To be able to compare and order numbers to 1,000,000</li> <li>To be able to round numbers within 1,000,000 to the nearest 10, 100 or 1,000</li> <li>To be able to round numbers within 100,000</li> <li>To be able to round numbers within 1,000,000</li> </ol>	<ol> <li>Roman numerals to 1,000</li> <li>Numbers to 10,000</li> <li>Numbers to 100,000</li> <li>Numbers to 1,000,000</li> <li>Read and write numbers to 1,000,000</li> <li>Powers of 10</li> <li>10/100/1,000/10,000/100,000 more or less</li> <li>Partition numbers to 1,000,000</li> <li>Compare and order numbers to 100,000</li> <li>Compare and order numbers to 1,000,000</li> <li>Round to the nearest 10, 100 or 1,000</li> <li>Round within 100,000</li> <li>Round within 1,000,000</li> </ol>
Addition and Subtraction	<ul> <li>To be able to add and subtract whole numbers with more than 4 digits,</li> </ul>	<ol> <li>To be able to mentally calculate sums and difference</li> <li>To be able to add whole numbers with more than four digits</li> </ol>	Mental strategies

	<ul> <li>including using formal written methods (columnar addition and subtraction)</li> <li>To be able to add and subtract numbers mentally with increasingly large numbers</li> <li>To be able to use rounding to check answers to calculations and determine, in the context of a problem, levels of accuracy</li> <li>To be able to solve addition and subtraction multi-step problems in contexts, deciding which operations and methods to use and why.</li> </ul>	<ol> <li>To be able to subtract whole numbers with more than four digits</li> <li>To be able to estimate answers using rounding</li> <li>To be able to use inverse operations to solve addition and subtraction problems</li> <li>To be able to solve multi-step addition and subtraction problems</li> <li>To be able to compare calculations using knowledge of number structure</li> <li>To be able to find missing numbers in addition and subtraction calculations</li> </ol>	<ol> <li>Add whole numbers with more than four digits</li> <li>Subtract whole numbers with more than four digits</li> <li>Round to check answers</li> <li>Inverse operations (addition and subtraction)</li> <li>Multi-step addition and subtraction problems</li> <li>Compare calculations</li> <li>Find missing numbers</li> </ol>
Multiplication and Division	<ul> <li>To be able to identify multiples and factors, including finding all factor pairs of a number, and common factors of two numbers</li> <li>To be able to know and use the vocabulary of prime numbers, prime factors and composite (non-prime) numbers</li> <li>To be able to establish whether a number up to 100 is prime and recall prime numbers up to 19</li> <li>To be able to multiply and divide numbers mentally drawing upon known facts</li> <li>To be able to multiply and divide whole numbers and those involving decimals by 10, 100 and 1000</li> <li>To recognise and use square numbers and cube numbers, and the notation for squared (²) and cubed (³)</li> <li>To be able to solve problems involving multiplication and division including</li> </ul>	<ol> <li>To be able to find sets of multiples for given numbers</li> <li>To be able to find common multiples of any pair of numbers</li> <li>To be able to find factors of given numbers</li> <li>To be able to find common factors or any pair of numbers</li> <li>To be able to recall and describe prime numbers</li> <li>To be able to recall and describe square numbers</li> <li>To be able to recall and describe cube numbers</li> <li>To be able to multiply whole numbers by 10, 100 and 1,000</li> <li>To be able to divide whole numbers by 10, 100 and 1,000</li> <li>To be able to multiply and divide by multiples of 10, 100 and 1,000</li> </ol>	<ol> <li>Multiples</li> <li>Common multiples</li> <li>Factors</li> <li>Common factors</li> <li>Prime numbers</li> <li>Square numbers</li> <li>Cube numbers</li> <li>Multiply by 10, 100 and 1,000</li> <li>Divide by 10, 100 and 1,000</li> <li>Multiples of 10, 100 and 1,000</li> </ol>

	using their knowledge of factors and		
Fractions	<ul> <li>multiples, squares and cubes</li> <li>To be able to compare and order fractions whose denominators are all multiples of the same number</li> <li>To be able to identify, name and write equivalent fractions of a given fraction, represented visually, including tenths and hundredths</li> <li>To be able to recognise mixed numbers and improper fractions and convert from one form to the other and write mathematical statements &gt; 1 as a mixed number</li> <li>To be able to add and subtract fractions with the same denominator and denominators that are multiples of the same number</li> </ul>	<ol> <li>To be able to find fractions equivalent to a unit fraction</li> <li>To be able to find fractions equivalent to a non-unit fraction</li> <li>To be able to recognise equivalent fractions</li> <li>To be able to convert improper fractions to mixed numbers</li> <li>To be able to convert mixed numbers to improper fractions</li> <li>To be able to compare fractions less than 1</li> <li>To be able to order fractions less than 1</li> <li>To be able to compare and order fractions greater than 1</li> <li>To be able to add and subtraction fractions with the same denominator</li> <li>To be able to add fractions within 1</li> <li>To be able to add fractions with a total greater than 1</li> <li>To be able to add to a mixed number</li> <li>To be able to add two mixed numbers</li> <li>To be able to subtract fractions</li> <li>To be able to subtract from a mixed number</li> <li>To be able to subtract from a mixed number – breaking the whole</li> <li>To be able to subtract two mixed numbers</li> </ol>	<ol> <li>Find fractions equivalent to a unit fraction</li> <li>Find fractions equivalent to a non-unit fraction</li> <li>Recognise equivalent fractions</li> <li>Convert improper fractions to mixed numbers</li> <li>Convert mixed numbers to improper fractions less than 1</li> <li>Order fractions less than 1</li> <li>Compare and order fractions greater than 1</li> <li>Add and subtraction fractions with the same denominator</li> <li>Add fractions within 1</li> <li>Add fractions with a total greater than 1</li> <li>Add to a mixed number</li> <li>Add two mixed numbers</li> <li>Subtract from a mixed number</li> <li>Subtract from a mixed number</li> <li>Subtract from a mixed number – breaking the whole</li> <li>Subtract two mixed numbers</li> </ol>
		Spring	
Multiplication and Division	<ul> <li>To be able to multiply numbers up to 4 digits by a one- or two-digit number using a formal written method, including long multiplication for two- digit numbers</li> <li>To be able to multiply and divide numbers mentally drawing upon known facts</li> </ul>	<ol> <li>To be able to multiply up to a 4-digit number by a 1-digit number</li> <li>To be able to multiply a 2-digit number by a 2-digit number using the area model</li> <li>To be able to multiply a 2-digit number by a 2-digit number</li> <li>To be able to multiply a 3-digit number by a 2-digit number</li> <li>To be able to multiply a 4-digit number by a 2-digit number</li> <li>To be able to solve problems with multiplication</li> </ol>	<ol> <li>Multiply up to a 4-digit number by a 1-digit number</li> <li>Multiply a 2-digit number by a 2-digit number (area model)</li> <li>Multiply a 2-digit number by a 2-digit number</li> <li>Multiply a 3-digit number by a 2-digit number</li> </ol>

	<ul> <li>To be able to divide numbers up to 4 digits by a one-digit number using the formal written method of short division and interpret remainders appropriately for the context</li> <li>To be able to solve problems involving addition, subtraction, multiplication and division and a combination of these, including understanding the meaning of the equals sign</li> <li>To be able to solve problems involving multiplication and division, including scaling by simple fractions and problems involving simple rates.</li> </ul>	<ul> <li>7. To be able to calculate short division</li> <li>8. To be able to divide a 4-digit number by a 1-digit number</li> <li>9. To be able to divide with remainders</li> <li>10. To be able to divide choosing the most efficient method</li> <li>11. To be able to solve problems with multiplication and division</li> </ul>	<ol> <li>Multiply a 4-digit number by a 2-digit number</li> <li>Solve problems with multiplication</li> <li>Short division</li> <li>Divide a 4-digit number by a 1-digit number</li> <li>Divide with remainders</li> <li>Efficient division</li> <li>Solve problems with multiplication and division</li> </ol>
Fractions	To be able to multiply proper fractions and mixed numbers by whole numbers, supported by materials and diagrams	<ol> <li>To be able to multiply a unit fraction by an integer</li> <li>To be able to multiply a non-unit fraction by an integer</li> <li>To be able to multiply a mixed number by an integer</li> <li>To be able to calculate a fraction of a quantity</li> <li>To be able to find a fraction of an amount</li> <li>To be able to find the whole using a fraction of an amount</li> <li>To be able to use fractions as operators</li> </ol>	<ol> <li>Multiply a unit fraction by an integer</li> <li>Multiply a non-unit fraction by an integer</li> <li>Multiply a mixed number by an integer</li> <li>Calculate a fraction of a quantity</li> <li>Fraction of an amount</li> <li>Find the whole</li> <li>Use fractions as operators</li> </ol>
Decimals and Percentages	<ul> <li>To be able to read and write decimal numbers as fractions [for example, 0.71 = 71/100]</li> <li>To be able to recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents</li> <li>To be able to round decimals with two decimal places to the nearest whole number and to one decimal place</li> </ul>	<ol> <li>To be able to make, read and write decimal numbers up to 2 decimal places</li> <li>To be able to recognise equivalent fractions and decimals (tenths)</li> <li>To be able to recognise equivalent fractions and decimals (hundredths)</li> <li>To be able to recognise equivalent fractions and decimals focussing on halves, quarters, fifths and tenths</li> <li>To be able to recognise, read and write thousandths as fractions</li> <li>To be able to recognise, read and write thousandths as decimals</li> </ol>	<ol> <li>Decimals up to 2 decimal places</li> <li>Equivalent fractions and decimals (tenths)</li> <li>Equivalent fractions and decimals (hundredths)</li> <li>Equivalent fractions and decimals</li> <li>Thousandths as fractions</li> <li>Thousandths as decimals</li> <li>Thousandths on a place value chart</li> </ol>

Perimeter and	<ul> <li>To be able to read, write, order and compare numbers with up to three decimal places</li> <li>To be able to solve problems involving number up to three decimal places</li> <li>To be able to recognise the per cent symbol (%) and understand that per cent relates to 'number of parts per hundred', and write percentages as a fraction with denominator 100, and as a decimal</li> <li>To be able to solve problems which require knowing percentage and decimal equivalents of 1/2, 1/4, 1/5, 2/5, 4/5 and those fractions with a denominator of a multiple of 10 or 25.</li> <li>To be able to measure and calculate the perimeter of composite rectilinger.</li> </ul>	<ol> <li>To be able to recognise and represent thousandths on a place value chart</li> <li>To be able to order and compare decimals with the same number of decimal places</li> <li>To be able to order and compare any decimals with up to 3 decimal places</li> <li>To be able to round decimal numbers to the nearest whole number</li> <li>To be able to round decimal numbers to 1 decimal place</li> <li>To be able to recognise, represent and understand percentages</li> <li>To be able to convert percentages to fractions</li> <li>To be able to compare percentages to decimals</li> <li>To be able to find equivalent fractions, decimals and percentages</li> <li>To be able to calculate the perimeter of rectangles</li> <li>To be able to calculate the perimeter of rectangles</li> </ol>	<ol> <li>8. Order and compare decimals (same number of decimal places)</li> <li>9. Order and compare any decimals with up to 3 decimal places</li> <li>10. Round to the nearest whole number</li> <li>11. Round to 1 decimal place</li> <li>12. Understand percentages</li> <li>13. Percentages as fractions</li> <li>14. Percentages as decimals</li> <li>15. Equivalent fractions, decimals and percentages</li> <li>1 Perimeter of rectangles</li> <li>2 Perimeter of rectangles</li> <li>2 Perimeter of rectangles</li> </ol>
Area	<ul> <li>the perimeter of composite rectilinear shapes in centimetres and metres</li> <li>To be able to calculate and compare the area of rectangles (including squares), and including using standard units, square centimetres (cm²) and square metres (m²) and estimate the area of irregular shapes</li> </ul>	<ol> <li>To be able to calculate the perimeter of rectilinear snapes</li> <li>To be able to calculate the perimeter of polygons</li> <li>To be able to calculate the area of rectangles</li> <li>To be able to calculate the area of compound shapes</li> <li>To be able to estimate area</li> </ol>	shapes 3. Perimeter of rectilinear shapes 4. Area of rectangles 5. Area of compound shapes 6. Estimate area
Statistics	<ul> <li>To be able to solve comparison, sum and difference problems using information presented in a line graph</li> <li>To be able to complete, read and interpret information in tables, including timetables</li> </ul>	<ol> <li>To be able to draw line graphs</li> <li>To be able to read and interpret line graphs</li> <li>To be able to read and interpret tables</li> <li>To be able to read and interpret two-way tables</li> <li>To be able to read and interpret timetables</li> </ol>	<ol> <li>Draw line graphs</li> <li>Read and interpret line graphs</li> <li>Read and interpret tables</li> <li>Two-way tables</li> <li>Read and interpret timetables</li> </ol>
Chara	Tabada a Maria a Maria	Summer Term	4. Undanskand a de celebrar
Shape	<ul> <li>To be able to identify 3-D shapes, including cubes and other cuboids, from 2-D representations</li> </ul>	<ol> <li>To be able to understand and use degrees</li> <li>To be able to classify angles</li> <li>To be able to estimate angles</li> </ol>	<ol> <li>Understand and use degrees</li> <li>Classify angles</li> <li>Estimate angles</li> </ol>

	<ul> <li>To be able to know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles</li> <li>To be able to draw given angles, and measure them in degrees (°)</li> <li>To be able to identify:         <ul> <li>angles at a point and one whole turn (total 360°)</li> <li>angles at a point on a straight line and ½ turn (total 180°)</li> <li>other multiples of 90°</li> </ul> </li> <li>To be able to use the properties of rectangles to deduce related facts and find missing lengths and angles</li> <li>To be able to distinguish between regular and irregular polygons based on reasoning about equal sides and angles.</li> </ul>	<ol> <li>To be able to measure angles up to 180 degrees</li> <li>To be able to draw lines and angles accurately</li> <li>To be able to calculate angles around a point</li> <li>To be able to calculate angles on a straight line</li> <li>To be able to calculate lengths and angles in shapes</li> <li>To be able to identify describe and draw regular and irregular polygons</li> <li>To be able to describe the properties of 3-D shapes</li> </ol>	<ol> <li>Measure angles up to 180 degrees</li> <li>Draw lines and angles accurately</li> <li>Calculate angles around a point</li> <li>Calculate angles on a straight line</li> <li>Lengths and angles in shapes</li> <li>Regular and irregular polygons</li> <li>3-D shapes</li> </ol>
Position and Direction	<ul> <li>To be able to identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed.</li> </ul>	<ol> <li>To be able to read and plot coordinates</li> <li>To be able to solve problems with coordinates</li> <li>To be able to translate shapes on a grid</li> <li>To be able to translate shapes with coordinates</li> <li>To be able to identify and draw lines of symmetry</li> <li>To be able to reflect a shape in horizontal and vertical lines</li> </ol>	<ol> <li>Read and plot coordinates</li> <li>Problem solving with coordinates</li> <li>Translation</li> <li>Translation with coordinates</li> <li>Lines of symmetry</li> <li>Reflection in horizontal and vertical lines</li> </ol>
Decimals	<ul> <li>To be able to recognise and use thousandths and relate them to tenths, hundredths and decimal equivalents</li> <li>To be able to solve problems involving number up to three decimal places</li> <li>To be able to read, write, order and compare numbers with up to three decimal places</li> </ul>	<ol> <li>To be able to use known facts to add and subtract decimals within 1</li> <li>To be able to find complements to 1 for numbers with up to 3 decimal places</li> <li>To be able to add and subtract decimals across 1</li> <li>To be able to add decimals with the same number of decimal places</li> <li>To be able to subtract decimals with the same number of decimal places</li> </ol>	<ol> <li>Use known facts to add and subtract decimals within 1</li> <li>Complements to 1</li> <li>Add and subtract decimals across 1</li> <li>Add decimals with the same number of decimal places</li> <li>Subtract decimals with the same number of decimal places</li> </ol>

	To be able to multiply and divide whole numbers and those involving decimals by 10, 100 and 1000	<ul> <li>6. To be able to add decimals with different numbers of decimal places</li> <li>7. To be able to subtract decimals with different numbers of decimal places</li> <li>8. To be able to choose efficient strategies for adding and subtracting decimals</li> <li>9. To be able to identify, read and write decimal sequences</li> <li>10. To be able to multiply decimals by 10, 100 and 1,000</li> <li>11. To be able to divide decimals by 10, 100 and 1,000</li> <li>12. To be able to multiply and divide decimals including missing values</li> </ul>	<ol> <li>Add decimals with different numbers of decimal places</li> <li>Subtract decimals with different numbers of decimal places</li> <li>Efficient strategies for adding and subtracting decimals</li> <li>Decimal sequences</li> <li>Multiply by 10, 100 and 1,000</li> <li>Divide by 10, 100 and 1,000</li> <li>Multiply and divide decimals – missing values</li> </ol>
Negative Numbers	To be able to interpret negative numbers in context, count forwards and backwards with positive and negative whole numbers, including through zero	<ol> <li>To be able to read, write and understand negative numbers</li> <li>To be able to count through zero in 1s</li> <li>To be able to count through zero in multiples</li> <li>To be able to compare and order negative numbers</li> <li>To be able to find the difference between numbers including negative numbers</li> </ol>	<ol> <li>Understand negative numbers</li> <li>Count through zero in 1s</li> <li>Count through zero in multiples</li> <li>Compare and order negative numbers</li> <li>Find the difference</li> </ol>
Converting Units	<ul> <li>To be able to convert between different units of metric measure (for example, kilometre and metre; centimetre and millimetre; gram and kilogram; litre and millilitre)</li> <li>To be able to understand and use approximate equivalences between metric units and common imperial units such as inches, pounds and pints</li> <li>To be able to solve problems involving converting between units of time</li> </ul>	<ol> <li>To be able to describe kilograms and kilometres and their relationship with grams and metres</li> <li>To be able to convert metres and millimetres and litres and millilitres</li> <li>To be able to convert units of length</li> <li>To be able to convert between metric and imperial units</li> <li>To be able to convert units of time</li> <li>To be able to calculate with timetables</li> </ol>	<ol> <li>Kilograms and kilometres</li> <li>Millimetres and millilitres</li> <li>Convert units of length</li> <li>Convert between metric and imperial units</li> <li>Convert units of time</li> <li>Calculate with timetables</li> </ol>
Measurement - Volume	To be able to estimate volume [for example, using 1 cm³ blocks to build cuboids (including cubes)] and capacity [for example, using water]	<ol> <li>To be able to measure volume using cubic centimetres</li> <li>To be able to compare volume</li> <li>To be able to estimate volume</li> <li>To be able to estimate capacity</li> </ol>	<ol> <li>Cubic centimetres</li> <li>Compare volume</li> <li>Estimate volume</li> <li>Estimate capacity</li> </ol>
